INTRODUCTION

UNIVERSE A Magic that spans the Lands Between Where nature and mankind meet, a fate we cannot escape A world of wonders and terrors, of mysterious old traditions and obscure legends A world in which nature rules, a world touched by an extraordinary power called 'The Elden Ring'. A world where magic, powerful weapons, ancient books, and blazing war are the keys to all the chaos that has engulfed mankind... LESSON PLAN ■ The Seven Elden Rings The lands between are filled with volcanic seas and desolate mountains. The Abyss, The Elden Ring, The Elden Forest, The Poison Cloud, and the Penumbra - These are the seven most important territories in the Lands Between. The Girdle of the Elden Ring - The lands beyond the Elden Forest in the Lands Between. The Girdle is a place where one cannot escape the fate that has befallen mankind. The Isle of Knights, Island of Sorcerers, and Isle of Valiants - These three are also lands beyond the Girdle. The Isle of Knights is a territory where only those who have done the impossible can enter. The Isle of Sorcerers is where the sorcery of the enemy hides. The Isle of Valiants is where ancient secrets await. ■ The Lands Between The land that holds the Lands Between lies below the seven Elden Rings. It is a land where hidden mysteries are discovered every day. It is a land where an unknown power in nature flourishes. It is a land where ancient traditions have survived. A land where nature and mankind merge as one. ■ The Relation to the Girdle of the Elden Ring One can journey to the Elden Ring from any place in the Lands Between, but it is forbidden to enter the Girdle of the Elden Ring. Only those who have returned from the Girdle are allowed to visit this land.

The number of new HIV infections in the US last year fell for the third straight year, continuing an encouraging trend that has helped tens of thousands of people in the country avoid AIDS. “People are working harder, they’re using condoms more and more,” Dr. Aaron Chowers said. So far, he added, “We’re in the right direction.” The new HIV infections declined to 55,000 in 2018 -- the smallest number since HIV/AIDS was first observed in the US in the 1980s -- a decline of 25.8 percent from 2017, according to a National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention report issued Tuesday. Of the new infections, about 29,000 were among people who inject drugs. Nationally, HIV diagnoses among gay men have continued to drop, and heterosexual Americans were largely unaffected. But some of the decline was due to more people getting tested and being diagnosed. Chowers, an infectious disease physician at San Francisco General Hospital, said that the sharp decline in the rate of new
