Q: Mysql Syntax Error on Delete I have this error in server, I have no clue how to fix this. My table name is: TestTable, and this error shows up in CodeIgniter. You have an error in your SQL syntax; check the manual that corresponds to your MariaDB server version for the right syntax to use near 'COUNT(0) FROM test' at line 1 In the code, I have: \$query = "SELECT COUNT(0) AS total FROM test"; \$this->db->query(\$query); \$count = \$this->db->query("SELECT COUNT(*) AS total FROM test"); What am I doing wrong? Thanks! A: That's not what you want. You want to count all the rows from the table. You want to use count(col) to count the number of rows in the column named col. And I'm guessing that this is a simple delete statement to get rid of the junk data. DELETE FROM test WHERE col = You don't need to do SELECT first, and there's no need to do COUNT(*) AS total as you're only counting one column. So the query would look like: DELETE FROM test WHERE col = 'use strict'; var env = require('process-env')['NODE_ENV']; var isLocal = require('./'); var isWin32 = process.platform === 'win32'; var path = require('path'); var isUnix = /^[\\|/]*/.test(process.platform); var isPosix = !isWin32 && /^[\\|/]*/.test(process.platform); function normalize(filename) { var len = filename.length; if (len === 0) return '/'; if (isPosix) { if (isUnix) { if (len > 1 && len > 3 && filename[0] === '@' && filename[1] === '/' && filename[2] === '@') { return path.join(process.c
