As previous versions have, players will be shown a "quick analysis" of player movement, on-ball positioning, directional intelligence, man-on-man defending and attacking play. You will be able to gain a real-time visualization of player performance metrics over each career and skill level. These metrics can even be gauged in real time, to track a player's performance during a match. New to FIFA 22 is an AI-controlled assistant -- dubbed the "Behavior System" -- that provides real-time feedback and advice to players regarding their performance. It provides solutions to tactical dilemmas and helps players make informed decisions. FIFA 22 will have all the new features that were introduced in FIFA 19. These include: The 4K Presentation Hyper-Realistic Player Movement Large Teams with Different Tactics "The World's Most Liked Football Game" on Mobile The First Global Player Ratings System New Themes including "Powerful Goal of the Year" feature New Player Performance Metrics New Career Mode Real-Time Comparison of Player Performances Supports for all FIFA and non-FIFA esports platforms Re-designed FIFA Ultimate Team Immersive Sound New Player Animation Open Beta Release on September 14 Community Improvements In-game systems The new game engine used in FIFA 22 is built on the Frostbite core engine and is now fully expanded. It introduces key innovations, such as: "Real Player Motion" - new, authentic player animations that replicate how players really move on the pitch "The World's Most Loved Player" - bring these new graphics to your players, replace their player models and let them live out their superstar dreams "Pro Player Modelling" - create and share your player model over social media, or share it with friends or other gamers "No Head-Up Display" - there is no more distraction when players are dribbling and shooting. Your gamer will not get carried away by the game when you are not looking "Shoot, Boost & Pass" - implement

Fifa 22 Features Key:

- Chase your dreams to become one of the world's elite by developing your club skillfully and advancing your career as a player and manager. In the new Player Career Mode you can play as a trainer at your childhood club and go from the first team through all the youth teams, rising up to become a celebrated player. You can also follow your dreams as a player, and embark on your first-ever professional career in career mode.
- Deal with the Herculean task of improving your national team, as you compete for a spot at the World Cup with FIFA 22. Create your dream squad, and take it to the competition.
- Carry your Pro exploits to the new Fifa of the next generation, where players' skills, attributes and tactics are more detailed and intuitive than ever before.
- Dominate the pitch with the most feature-packed Commentary engine in the industry. Hundreds of new, original thought sequences, with commentary from more than 30 top football journalists. New Editor with new elements for gameplay, including in the Match Engine and Master League. Add in new line editing, presentation, format and effects, and the Editor's workbook has never been more efficient or accessible.
- Gears of improvement. The new editor lets you customize shot locations, line, wall and size for shots, and make it all match your game from any angle using new sliders.
- Exclusive formations can be adapted to your level and the type of opposition you are facing to bring a personal touch to every game. For example, a 4-3-3 formation in Ultimate Team mode can be adapted to suit your playstyle.
- FIFA 22 introduces "HyperMotion Technology", which uses motion capture data captured from real players while in motion. The data is used to power gameplay, giving players more control of the ball. Add in new controls with more touches and passes.
- Featuring a new Physics engine, ball movement is more responsive, tackles and aerial duels are realistic, more players can be seen at the same time, a new off-ball physics system for assists and headers, and more.

What's new:

- **Introducing Hypermotion Technology** - The spectacular new "HyperMotion" gameplay system brings unseen, lifelike ball movement and reaction. Players will feel more connected to the ball, use specific passes and dribble better. The new "Hitch" mechanic will make players much more agile and enable more magical goal-scoring sequences.
- **The Frostbite 3 Engine**- Powered by the new "FIFA 3D Universe" engine, the ball will behave differently in all weather and lighting conditions. Players and teammates will respond better to the new ground. Dynamic player textures and more realistic collisions will bring the pitch to life, bumping off walls, going airborne, and more - all to make the gameplay more authentic and dynamic.
- **Rediscover the magic of the World Cup** with the new "3D World Cup Camera". Enjoy the "3D World Cup Camera" option to take in more of the game's epic feeling moments - like goal celebrations and memorable shots.
- **Go to stadiums around the world** and head-to-head with the FIFA World Stars in Exhibition matches, Career Mode and Online Seasons.
- **A major overhaul of one-on-one interactions**, impact animations and the build-up to headers and dribbles will immerse players in individual matchups. A greater variety of on-ball behaviours will make players dart in all directions and leave defenders lost for choice.
- **A new focus on player talent** has been incorporated into the Player Intelligence technology (PIT) system, including new techniques, technologies and areas of expertise. Players' strengths, weaknesses and technical attributes will make them more suitable to their position.
- **The FIFA 22 Ultimate Team SDK** is now an open platform allowing players to build and share the many new features introduced in FIFA 22, with the ultimate aim of getting more players fully involved in the creative community.
- **The Football HUD on-screen information** will be more robust, recognizable, accessible and highly responsive. Look up and unlock the game's many secrets; gain the edge on your opponents - everything will be clearer than ever before.
- **The game's ultimate "link up" function:** Futures, Tackles, set pieces, key passes and more. All of the intricate flow of the game can be linked with each other, enabling a comprehensive reading of the tactical situation.
- **A new "Save Auto**

FIFA is the must-have football experience for everyone. Available on game consoles, PC, mobile devices and connected TVs, FIFA comes free to play every month. Each FIFA contains a packed roster of real players, stunning visuals and the deepest gameplay in the football world. Take part in authentic matchday moments with all 25 top leagues and play against millions of rivals on FIFA Ultimate Team, or master new techniques and discover hidden treasures with FIFA Editions. If it's FIFA and it's on, there's a place for you. Power Up Your Team And Play Better Football With Advanced Player Intelligence and Pro-Director, EA SPORTS™ FIFA provides the most accurate ball-centric controls ever achieved, delivering realistic ball and player collisions. Now that's football. SIX WAYS FIFA 22 DEALS WITH THE BALL New Player Intelligence sees AI creating and react to better decisions off the ball than ever. FIFA 22 introduces Pro-Director, a new AI engine powered by an exclusive upgraded physics engine to see a new level of decision-making and execution. With this new technology, EA Sports™ FIFA 22 drops the ball from the full scenario, and the players are empowered to make the most of every scenario, whether the shot is on target or not. This means that shots can be turned into goals, and headers into goals, based on the exact position of the ball. All of the AI's new thinking also impacts each player on the pitch, as the AI now visualises and anticipates moves, forcing players to stay tight to the ball and leaving them with less space to run into. In addition to reacting to game situations with more intelligence, players can choose their preferred style of play, such as choosing a defensive or offensive style, on the fly. As a result, FIFA reacts on the pitch better and reacts faster than ever. A smarter AI helps players and the ball work in harmony. And with all eyes on the ball, EA SPORTS™ FIFA 22 provides players with the most complete ball-centric FIFA ever seen on the field. Three different ball physics provide an even clearer touch on the ball, react to every challenge and even understand general game situations, such as 'dribble' or 'carry', to create more realistic and dynamic gameplay. Best in Class FIFA Ultimate Team Creativity EA SPORTS™ FIFA Ultimate Team™ (FUT) continues to lead the pack for innovation, providing global creative tools and game moments to build and play the most complete game
