Additionally, the game's multiplayer mode is also well improved from its predecessors. The maps are bigger, better and more detailed than before, making all the environments much easier to navigate. Even the movement is better as it is done on the basis of the game's physics, rather than on the plane of the map. The weapons arsenal is larger than the one that the player found in Call of Duty 4: Modern Warfare, and provides unique character to the game. Furthermore, the leveling system is more detailed as the player now has different ranks that determine the players' rank in comparison to others and are to be leveled based on the number of kills, points earned through the game's killstreaks or unlockable perks. Due to the introduction of a rank system, the game's multiplayer features are made more realistic as the player is not always at the same level as his or her opponent. The entire multiplayer experience is greatly improved in Call of Duty: Black Ops 2. By demanding the PS3 to use 1000 frame-per-second gaming on the game's visuals, the game was redesigned to be smoother and smoother, and became one of the best online-gaming experiences. Lastly, a new gameplay mechanic was introduced, called the Killstreak rewards. These rewards must be unlocked and can be purchased with CODPoints or pre-order bonus codes. Call of Duty Advanced Warfare also introduces another brand new killstreak: the Trident. Seen on the weapons of the previous DLC (Chapter 2), it is a laser rifle that generates a massive thrashing screen of energy. The weapon is exclusive to Human and Exo Grapple gametypes, and is not compatible with the original campaign. 5ec8ef588b
