**What's New In?**

Beep Every Minute, Second Or Hour Software aims to provide a really simple manner of remembering events by means of sound notifications. This software includes: ? One-click reminder of upcoming events ? Sound notifications ? Over 30 sound files ? Multiple presets ? Multiple notifications ? History log ? Various events ? Detailed user manual ? Virus and spyware free Can't add custom beeps? Sound format not supported Software file size: 25.6 MBQ: Blank PDFs with appended strings I need to generate a blank PDF file and append a few strings in it. I am using iTextsharp 5.3.4.0. I have tried this code which worked well for me before but it fails now. PdfReader reader = new PdfReader(@"E:\BALLONGTOK\test.pdf"); FileStream file = new FileStream(@"E:\BALLONGTOK\test.pdf", FileMode.Create); PdfStamper pdfStamper = new PdfStamper(reader, file); AcroFields acroFields = pdfStamper.AcroFields; acroFields.SetField("ClientInfo", "Enter some text to show up in the header"); PdfWriter writer = PdfWriter.GetInstance(pdfStamper.AcroFields.Fields, new FileStream(@"E:\BALLONGTOK\test.pdf", FileMode.Create)); doc.Open(); PdfContentByte pdfContentByte = writer.DirectContent; pdfContentByte.AddTemplate(writer.DirectContent, 0, 0); doc.AddTitle("Doc Title"); It generates a file with the header but the text I am appending is not displayed. It is getting added to the pdf file but not visible in the output file. How can I get the output file to display the text added using this code? Thanks in advance. A: You have to write your content to the pdf before you add it to the pdf. It is probably the most simple, yet hardest concept to learn. Here is a great article: [Here is a great pdf explaining the steps to add a content to a pdf:](#) And here is a pdf demonstrating adding headers in a pdf:
