Color Desker Free [Updated-2022]

Color Desker is a Windows application that enables you to automatically switch between different wallpaper images using the automatic and manual modes. Simply drag and drop your favorite image to Color Desker and start changing the photos as your desktop wallpaper. You may select an interval, which means that you can adjust the automatic wallpaper changing feature to fit your preferences. Color Desker automatically keeps track of the files you have already added to the list and lets you easily go back to the very first list entry. Plus, you can also select photos that have been already marked with all kinds of predefined indicators and sort them by the ones you like or hate, most popular or least used. Not only that, but the tool hosts an amazing list of wallpapers you can pick from, categorized into: Beautiful, Nature, Little Red Riding Hood, Japanese, Adventure, Fantasy, Animal, Sports, Cartoons, Abstract, Minimalist, Abstract or Surrealist. Homepage ScreenCapture Change screen wallpaper easily and safely with ScreenCapture. You can capture screen at one click and easily select a hotkey for capturing. This will help you quickly find the picture that you want to watch. Automatic Download:

What's New in the Color Desker?

Color Desker for Windows is a new and useful utility for Windows 10 that will let you change your desktop wallpaper to any image you want, as well as for different parameters. Color Desker for Windows installs itself into the default Start Menu and Quick access as a tile, so it's very easy to get to. Color Desker allows you to change your wallpaper as often as you want, so you get your image and color exactly as you want - right on your desktop. The app automatically refreshes every hour or a set number of minutes, and also allows you to set custom intervals. You also have full control over the user interface and can easily make it your own through different settings. Additionally, you can work with the application from the offline mode, so you can use it even when you're on a public WiFi network. Color Desker for Windows does not store your photos on the cloud, so you can be sure that your images are always secure. If you've never used an application to change your wallpaper, this app is a must have. The interface is fully configurable, and the app has many features. What's more, it's a useful utility that can be used by both beginners and professionals, as it's not scary to change your wallpaper and not a very difficult task at all. Color Desker for Windows 3.0.5.0 BitDigger The most popular windows editor and build the fastest windows application. New feature: fix broken images and other suggestions.
