Rise of the Warlords for the PlayStation4 allows players to enjoy 16 players as they enter a world where human society is on the brink of collapse. No longer are they fighting against the "Metal Beasts", but now are they fighting amongst each other for the scraps of a harsh world. Life is tough as the game progresses, but the players' true reward comes from overcoming this hardship and becoming stronger. Lead your 3D-Battleship-like fleet through space and crush your enemy's fleet! Defeat the enemy in order to obtain not only the highest score, but also earn special victory items. As you destroy your enemies, you will be rewarded by earning Power. You will be able to use Power to gain access to more in-depth features of the game, such as (but not limited to) upgrading weapons and abilities, as well as interacting with other players. This is the story of the Ghosts who have been waiting for a suitable home to call home. The final battle has begun. Descend to Earth's surface, and battle the most powerful enemy of all—HEROCRACY.

7. OFFICIAL SOUND: In the beginning, we had no plan for a game like RESONATOR. Faced with the need for a full orchestra to fulfill our dream, we made a bold decision of going outside of our own limits. Now we are proud to be able to present to you the magnificent work that RESONATOR did in order to bring DoDonPachi Resurrection's music to life in this arrangement. RESONATOR was formed by Kohta Takahashi (guitar, vocals) and Kenji Ito (keyboard, vocals). Although both have played the instrument in various bands for many years, this is the first time that the two have united to provide a remarkable sound. Having released "FELT" and "Gemini (RE) Generations" in DoDonPachi Resurrection, RESON

On the anniversary of the release of DDP's second game, Famitsu Magazine did a DoDonPachi Revival feature article, "The Return of DoDonPachi: Resurrection," this past December. Read here for more info. Localization The game was co-developed with Japanese company GungHo and ran on the new Unreal Engine 3. A translation for the game was being worked on by GungHo, but had some difficulties due to some unfinished features of Unreal Engine 3. For this reason, the game was delayed, and it was released on May 28, 2009. GungHo has stated that they can possibly get it on the PlayStation 3 if GungHo get a few more months. When the game was released, the English version of the game was made available on Steam. GungHo announced that they will be making a PC port version available shortly after the release of the game. A Linux version of the game was also announced. GungHo has stated that the port will have the English version, but they will not be developing it. On the PlayStation 3 platform, DDP Resurrection runs at 30 frames per second, in 3D using the AMD DirectX 11 graphics API, at 1280x720 resolution, and uses a 3.7GHz Intel Core i7 CPU. PlayStation 3 Retail Box Contains: Bundled game Blu-ray disc with Digipak packaging DoDonPachi Resurrection has an official soundtrack, and is downloadable in MP3, FLAC, WAV, RealMedia, and AAC formats. The soundtrack was produced by RESONATOR, a band made up of Kenji Ito and Kohta Takahashi, who also composed the soundtrack for the original DoDonPachi. DO DONPACHI R E S T A R T U R A N C E Story DoDonPachi Resurrection is a 2D fighting game for the PlayStation 3. It is an enhanced port of the original game, DoDonPachi Resurrection. Unlike the PlayStation 2 version of the game, it uses Unreal Engine 3, and runs at 30 frames per second, in 3D using the AMD DirectX 11 graphics API, at 1280x720 resolution, and uses a 3.7GHz Intel Core i7 CPU. DoDonPachi Resurrection stars the original cast of DoDonPachi and, along with them, an
