Messenger Plus! For Skype Crack Product Key Download [Updated-2022]

Messenger Plus! For Skype Crack + [Mac/Win]

Messenger Plus! for Skype is a Skype add-on that allows you to record Skype calls, add video effects, log chat, change your ringtones and lock the IM. Features: Record Skype calls - One click is all it takes to record calls for any user. Send animations to friends - You can now show your friends how cool you are. Customize ringtones - Now you can have your own customized ringtones for your friends to hear. Log chat - Keep your friends and family informed when you cannot. Lock Skype - You can now lock Skype with the press of a button and you'll feel safer. System resource usage: Messenger Plus! for Skype places no strain on your computer's resources. Cost: Free from the developer. Minimum requirements: There are no minimum system requirements listed by the developer. Author's review: Messenger Plus! for Skype is a Skype add-on that allows you to record Skype calls, add video effects, log chat, change your ringtones and lock the IM. Free from the developer. Ad-riddled setup and easy-to-use environment The installation does not take very long, yet you should know that it offers you to make some changes to your default web browser (modify search engine, homepage etc.), and it is not possible to decline this proposal. After completing this process, this utility places a toolbar next to the Skype window, from which you can easily access all the options available. It is suitable to all types of users, including those with little experience with the IT world, the extensive Help contents making sure of this. Record calls and tweak some related parameters First and foremost, this tool enables you to record any Skype call, be it video or audio, with just a click of the button. From the settings panel you can easily set up the app to automatically record your calls, open output folder when the process is done, change the output location and adjust the video quality. Send animations to friends, customize ringtones and lock Skype Messenger Plus! for Skype also comes bundled with multiple animations that you can preview in a separate window or send to your friends, as well as some "Emotisounds," and video effects. It is possible to enable local chat logging to a custom directory, associate a specific sound (WAV) from your hard drive with a selected contact, and lock Skype. The latter feature enables you to also create
