Be the player you've always wanted to be. Explore an immersive, text-based story where you control your actions, and where each decision has a consequence. Experience the action that gets you to the heart of the story, all while you're having fun. Take an active role in the world of Wayhaven, by playing your cards right or wrong, choosing your words carefully, making key decisions, and learning what you're really made of. With each choice you make, you might gain new friends, build new alliances, make old enemies, or even turn against a former ally. The power to make your own story for good or ill is in your hands. Respond to the new situation created by the

---

carnival, discovering a new friend or enemy, a former friend or enemy, or no one at all. Expand upon the story as you see fit, with many possible outcomes. The story is yours to make... Create your character: Strive to become the kind of person you'd want to have with you in a new situation. Will you make a new friend, turn a former enemy into an ally, or turn a stranger into an enemy? Build from Book One. Take advantage of the decision points, friends, enemies, options, and skills to define who you are and how your story evolves. Learn the rules: There are four main objectives in each of the seven chapters: 1. Find your friends in the Unit Bravo 2. Obtain the information needed to close the book of the carnival 3. Investigate something new 4. Learn

---

how to use a new ability What's for dinner?  
Told entirely from the perspective of the player, this storyline will support both a singular or shared-screen experience, where the story unfolds in a story-specific path, or a play-based experience, where the story will unfold in a storyline-specific path. What is it like to be a carnival worker? Your character walks and talks like a carnival worker—they're probably a cook, or a performer, or maybe something else. But they're a carnival worker. No matter how this plays out, your character will be a personality that you will either help or hurt, depending on which choices you make. The carnival workers of Wayhaven are a gruff lot, and you can expect to be abused if you go up against their rules

PlayNarvas NarváshReaction Map A narvash is a supernatural being in viking lore. They were "the world-devourers" who lived underground, feeding on human fear. They emerged when their caves were flooded, and attacked the land bridge of the known earth, bringing fear to men everywhere. They were both twilight dwellers and agriculturalist.

The existence of the narvash, also known as the dread-reaper, has long been a source of interest for scholars that study the legend of the Vikings, an area of research often referred to as "Vikicryptozoology." The name of the beast comes from "Norwegia," the Old Norse word for Norway. In the Viking Age, several Norse peoples inhabiting the

## **What's new:**

**-Charities-United Power currently employs over 4,000 individuals. For the past five years, the US has been engaged in a war with Libya. The US-led invasion and occupation of Libya has been conducted primarily through two secret offensives launched against Tripoli: the 2007 “No Fly Zone” and the 2011 “Olympic War”. As a result of these illegal actions, Libya has now become a failed state infested with terrorists. Despite this grim reality, in September 2011, the US and its allies requested \$30 billion to arm and train Syria’s rebels. Instead of spending that money on Libya, however, the US has spent almost \$3 billion (mostly on propaganda and violence) to prop up a regime which has killed countless innocent Syrians. Of that \$3 billion, about \$500 million was spent on training the supposedly-vetted Syrian rebels. Moreover, that money was funneled into a CIA-controlled internal power struggle between the regime and the Islamist al-Nusra Front, of which one-third of the al-Nusra Front was funded by the CIA. The Lebanese publication Al-Hayat reported, “It is clear that the CIA has been funneling money to Nusra to maintain its relations with it, and enlist it against the regime. There is no question, and now it has been definitively proven, that since Nusra is the strongest among the factions fighting the regime, the support that it receives from the US CIA saves the [regime] from falling.” Saudi Arabia, a close US ally, has been crucial in the CIA’s support of al-Nusra, despite the fact that the Islamist terrorist group has repeatedly stated that it will**

**attack Riyadh if they don't receive enough US-aid. According to Lisa Haven: "The idea behind targeting the Libyan regime was the same one behind the 'Arab Spring', and US support of terrorist groups in Libya, Syria, and beyond would be the same as that behind support for the Afghan 'jihadists'." There's nothing mysterious about the US alliance with violent Islamic states, as it was made abundantly clear in the efforts to topple Iraq. According to a 2005 CIA report leaked to the Washington Post: "The Iraqi regime remains viewed by the U.S. intelligence community as a lesser evil than the alternative posed by sectarian Shia groups**
