On the road in 2017, I happened upon a peanut butter and jelly sandwich made from Reese's Pieces. I'm aware of the bizarre nature of the sandwich; the peanut butter and jelly comes from a combination of peanuts and jelly, with Reese's Pieces filling the role of peanut butter. In

fact, there is no actual peanut butter in the sandwich. And yet, the sandwich was delicious. This is the ultimate road food; I might not be able to replicate the experience of a road trip, but I can experience the joy of one of many other sandwiches that share the same strange lineage. Heck, the lineage of some of these sandwiches are pretty close to the original. I had no idea there was a history to these sandwiches, and I think that's a shame. A list of many of the strange, and delicious, peanut butter and jelly road food sandwiches available in the continental US and Canada. Please note that some links to sandwiches are marked with an asterisk (*). This is because the sandwiches have been rebranded and there is no actual peanut butter in the sandwich. I had no idea there was a history to these sandwiches, and I think that's a shame.
