Cannot Load Idapi Service Library Delphi

[Click Here](#)

File: MSJT3032.DLL;. File: OCI8.DLL. File: sqlora8.dll i just installed delphi. just saved a file. how do i save it with an icon or like a desktop icon. file type or something that delphi will open in the correct program for it. i just installed delphi. just saved a file. how do i save it with an icon or like a desktop icon. file type or something that delphi will open in the correct program for it. the program freezes when i try to save a file into my project folder. i think it is because i tried to make a desktop icon before. but i don't think that should matter. if there is a book to help. I'm getting an error on my Delphi project that says, "Cannot load an IDAPI service library." This is on Windows 7. TIA. I have to retype everything because of the problem that occurs when I try to save my project. What is the proper way to save my project so that it will not act up like this again? when I try to run my application, I get an error message saying: cannot load an idapi service library. so, try to replace.dll with.exe in idapi.dll. File: MSJT3032.DLL

Cannot Load Idapi Service Library Delphi
